Philadelphia, Pennsylvania 19152

Dear Mr. Roffman:

I am afraid there is not room for another book on the assassination of President Kennedy. As you doubtless know, a great many books on this subject, from various points of view, have already been written and published. Several years ago we were forced to decline another book on this subject, written by a considerably more mature scholar. You write a very good letter and evidently have talent. I don't think you will find a publisher for this book, but I hope you will devote your talents to writing more books in the future, when your education is more advanced. In the meantime, why don't you try your hand at something less ambitious, such as short articles.

Sincerely yours,

Miriam S. Farley
